Application

- We see in this book the standard of those who are to be greeted and received: those who go forth for the Lord's Name's sake without robbing the people. This includes people John calls brothers and strangers. Given a clear identification of who is and isn't of God, how are you with receiving and including strangers who come in the name of the Lord? Once the fruit is demonstrated, are you still suspicious and rejecting, or do you receive such?
- Pray for discernment and strength to identify those who are of God, and show hospitality and love towards them!
